MEDICAL CLINIC | OUR EXPERIENCE MAKES YOURS

Quality In Medical Care

Our clinic is led by Dr Xavier, a medical doctor and former GP. His passion for cosmetic medicine led him to specialise in this field 16 years ago and he is a full-time cosmetic medical doctor and trainer/lecturer in cosmetic treatments.

Dr Xavier is joined in his Southampton clinic by a small team of professionals, with extensive experience in cosmetic medical treatments and customer service. Dr Xavier also offers a regular clinic himself, at The Bond Street Clinic, London located in the beautiful Gee's Court between Oxford Street and St Christopher's Place. The clinic is located near to Selfridges and is only a few minutes' walk from Harley Street and 2 minutes' walk from Bond Street Tube Station.

Treatments at our London Clinic

We first opened our doors 16 years ago (at our Southampton clinic) and have seen our industry grow rapidly over this time. However, the one thing that has not changed is that people want **safe and trusted treatments** in a professional and caring **medical environment**, and it is my promise to deliver that every time. At the London Clinic, we offer a wide range of treatments and therapies for your **skin health as well as some body treatments**.

Treatments at the London Clinic include:

• Lines, wrinkles and lip treatments • Collagen stimulation treatments (Ellansé) • Skin hydration treatments • Non-surgical rhinoplasty • Under-eye tear trough • Facial volume restoration • Light to medium medical skin peels • Mole screening / mapping service • Aqualyx fat dissolving injection for facial and body areas • Keloid scar treatments • Female intimate health - Vaginal Non-Surgical Labiaplasty • Desirial™ • Male intimate health - non-surgical

penoplasty (penis enlargement).

All of our treatments and therapies are **medically-based** and designed to **protect, maintain, restore and improve your physical and mental health and well-being** - helping you become the best version of you.

We are a medical clinic not a beauty salon so your physical and mental health is our sole mission and we offer only safe, tried and tested treatments. There are lots of "fad" treatments that we have seen come and go, many fuelled by the social media era that we live in (such as "Russian Doll lips" and "Fox eye threads"). If you are looking for these purely cosmetic treatments, then we are perhaps not the clinic for you.

Everything we do is provided in a medically-supervised clinical environment and your care with us starts with a consultation with Dr Xavier to discuss and recommend the best treatment or care package for you.
