MEDICAL CLINIC | OUR EXPERIENCE MAKES YOURS

News: January 2025

## IT'S OUR 19<sup>TH</sup> BIRTHDAY!

**The team at Dr Xavier & Associates Clinic celebrates our 19<sup>th</sup> birthday this month!**

We opened our doors in January 2006!

Over the last almost 2-decades, we have seen many changes in the medical aesthetic sector, with sadly very little safety regulation, and so many new providers offering treatments with zero medical qualifications.

Sadly, this situation persists in 2025, often fuelling unsafe or 'fad' treatments, many influenced by the social media era that we live in and not guided by evidence or patient safety.

Over the years, we have earned many awards and accolades, and we have grown to become the longest-serving clinic of our kind on the south coast offering such a comprehensive range of treatments and therapies all under one roof. These include aesthetic treatments, hair regrowth, mole services, allergy clinic, a variety of weight-loss treatments, hormone replacement, IV vitamin drips and boosters, intimate treatments and other wellness therapies.

However, for your reassurance, we are first-and-foremost a doctor and nurse-led regulated clinic, not a beauty salon. Secondly, we only offer treatments that are safe, tried and tested and that promote your physical health and wellness, skin health and appearance, as well as your mental health and wellbeing.

### **Dr Xavier explains...**

*"Although we have witnessed many changes, over what is almost a generation, the one thing that has not changed is that we'll always deliver safe and trusted treatments in a professional, caring and medically qualified setting."*
