MEDICAL CLINIC | OUR EXPERIENCE MAKES YOURS

## The future of wellness has arrived

Reviv is a Forward Thinking Concept in Elective Hydration, Beauty and Wellness Treatments.

Adequate fluid balance is paramount to health and maintenance of mind and body, just two percent dehydration can cause significant loss of productivity and create stress on the body and result in the release of free radicals, which can have numerous harmful effects. Common reasons for dehydration are decreased water intake, too much sun exposure, illnesses, increase in water loss, alcohol consumption alone or combined with any of the above.

Applying innovative western medicine to an eastern philosophy of balance, Reviv helps restore equilibrium through vitamin-infused IV therapies to combat and to treat the effects of dehydration, strenuous physical activity, ageing, sunburns, fatigue, and other factors.

Developed by a team of physicians, Reviv offers the benefits

of simple intravenous (IV) treatments infused with antioxidants, vitamins and a combination of medications to replenish, revitalise and rehydrate one's body back to health. Reviv infusions are now available at Dr Xavier G Medi-Spa as a Reviv Express partner clinic and are administered by one of our doctors.

IV treatments aid in enhancing memory and alertness, help detoxify and cleanse the body, reduce viral illness/colds and boosts the immune system, add shine to hair, skin and nails and even reported to alleviate depression.

In addition, Reviv offers vitamin/anti-oxidant intramuscular booster shots to promote wellness, achieve weight loss and boost energy.

All of the Reviv treatments have one common goal, to help **YOU** become more productive and looking and feeling **YOUR BEST.**

## The Benefits of IV Infusions

Without argument, the fastest and most efficient way to deliver rehydration and wellness agents is through direct introduction to the blood stream.

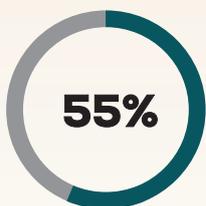

When a person consumes water or energy beverages or takes oral vitamins, the body only absorbs approximately 55% as it passes through the digestive tract.

Introducing rehydration and wellness agent via IV delivery, the body absorbs 100%.

The result is a person not only gains 100% of the benefits, but they do so quickly and efficiently.

**DIRECT DELIVERY  
MEANS 100% OF  
THE BENEFITS**

ORAL DELIVERY

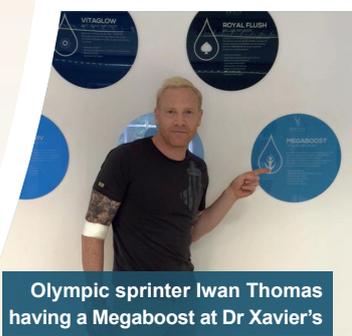

DIRECT DELIVERY

Luis Costa RN INP BSc is an NMC-registered medical nurse and carries out the majority of our REVIV infusions at our clinic as well as a range of other health, wellness and anti-ageing treatments and therapies. During your REVIV consultation, Luis will guide you as to the best infusion or booster shot for your needs and is there to answer all your questions.

# Booster Shot Benefits

Without argument, the fastest and most efficient way to deliver wellness agents is through direct introduction to the blood stream.

When a person consumes water, energy beverages or takes vitamins orally, the body only absorbs approximately 55% as it passes through the digestive tract.

Introducing wellness agents via IM booster shots, the body absorbs 100%.

The result is a person not only gains 100% of the benefits, but they do so quickly and efficiently.

## B-12 Pure Energy Booster Shot

Daily routines can be energy draining. Vitamin B-12 recharges you giving you the energy you need to tackle life.

- Increases Natural Energy Levels
- Increases Red Blood Cell Production
- Helps Regulate Sleep, Mood & Appetite Cycles
- Boosts Immune System

£35

## SLIMBOOST Fit Energy Booster Shot

Maximise your energy and fitness. Our SLIMBOOST Booster Shot contains vitamins, amino acids and anti-oxidants to keep you active and productive.

- Increases Natural Energy Levels
- Increases Red Blood Cell Production
- Helps Regulate Sleep, Mood & Appetite Cycles
- Detoxifies The Body
- Boosts Immune System
- Enhances Metabolism to Promote Natural Weight Loss

£45

## VITABOOST Total Body Booster Shot

Wellness and balance are key to maintaining a healthy lifestyle. VITABOOST's master anti-oxidant is the glue that keeps all vitamins working together to help keep your body function at it's best.

- Boosts Immune System
- Suppresses Inflammation
- Reduces the Effects of Stress
- Fights Damaging Free Radicals
- Prevents & Reverses Cell Damage
